5. On spaces that have specific events; the idea is to get each church involved on our district. If an event comes up and you really don't have anyone in that age group to attend; you may sponsor a student/adult from another church. Let us know that you would like to do this. We can help you find a church that needs the help to see their people participate.
6. Chance spaces – These spaces are challenging you to take a chance and do something new related somehow to Sunday School or Discipleship ministries. These could be starting new classes/groups, trying a new curriculum, or doing something crazy and out-of-the-box from what you currently do.
7. Community Chest spaces – These are for some type of community outreach. It could be something extravagant or something that simply connects you to others in the community in some way. This could be something like contacting Cortney about bringing the snowcone machine or your church handing out bottled water.

Seasonal Drawings (Done per side) will be done at the end of each season. Make sure you are getting things to us, so we know who is eligible. Drawings will be held for:
